

Diversity Target

In 2010 we formalised our diversity policy to reflect our belief that diversity is a competitive advantage for our investors. Since then, we have made public commitments and set objectives to achieve gender equity including balanced gender representation on our boards and in our workforce. In 2017, we achieved our combined female participation target in senior leadership roles and the Dexus Board (excluding Executive Directors) of at least 33%.

In February 2018, Dexus revisited our diversity targets and agreed a new gender equity target of 40% female, 40% male and 20% any gender in senior management roles by 30 June 2021 (40/40/20 target). Dexus continues to monitor and report its actual diversity profile in both senior management and Board. Dexus remains committed to advancing gender equality and intends to achieve the 40:40:20 target at senior and executive management levels by the end of FY23.

“Board” has been defined as Non-Executive Directors.

“Senior Management” has been defined as Group CEO and Managing Director, members of the Executive Committee (Executive Bands 2 and 3), Heads of (Executive Band 1), and Senior Managers (Manager Band 3). This definition is consistent with the Workplace Gender Equality Agency (WGEA) definition for reporting workforce demographics.

Progress and Targets

	30 June 2022	30 June 2023	30 June 2024	FY24 Target
Women on the Dexus Board	43%	71%	57%	33%
Women on the Dexus Asset Management Limited Board	50%	75%	75%	33%
Women in Senior Management	35.8%	38.3%	34%*	40%

** Decrease due to a combination of resetting our role classification process and organisational structural changes following the integration of AMPC*

We continue to support and encourage diversity at all levels including the Boards, the senior management team and throughout our organisation. The Dexus Board and Management oversee progress towards the achievement of our diversity objectives, including regular monitoring of key workforce demographics.
